Design and Implementation of a Software for the Registration of Students Abroad and International Scholarships of the Ministry of Foreign Affairs

About MIRE

The Ministry of Foreign Affairs of Panama is in charge of directing International relations and determining the foreign policy of the Panamanian State, promoting regional integration and defending abroad the interests of the Panamanian Nation and its nationals in accordance with constitutional norms, as well as those of international law.

REPÚBLICA DE PANAMÁ
— GOBIERNO NACIONAL —

MINISTERIO DE
RELACIONES EXTERIORES

Challenge

The Ministry of Foreign Affairs of Panama turned to Rootstack with the need to have an interactive form on its website available to all people and students abroad to register.

Our solution

Work was done for the Ministry of Foreign Affairs on the design and installation of software that would allow international students to register for international scholarships. This software included a number of fields for collecting all of the relevant information from the student.

BECAS PARA PÚBLICO GENERAL

PROGRAMA DE BECAS DEL GOBIERNO JAPONÉS

Key features of this project:

- Creation of a registration form that contains fields for the following information: profile photo, personal data, place of study, type of scholarship, name of the university, among others.

- Registro de becarios en el exterior: Permitir el registro de becarios en el exterior, sin límite de cantidad. Contiene los siguientes campos de Información Básica del Becario en el Extranjero: primer nombre, segundo nombre, primer apellido, segundo apellido, número de identidad (DNI o pasaporte), fecha de nacimiento, sexo, foto del becario.

- Contains the following Address fields: country, province, district, corregimiento, specific address, postal box (optional).

- In addition to this, the student registration software collects information about: contact details, academic level, employment information and also if the student is going to opt for an international scholarship.

- Creation of a plugin to reset the user's password through the email provided to the system.

- History tab of procedures or applications for international scholarships.

- Creation of fields for handling requests, such as: current procedures.

- 40 hours of consulting.
